

If you've read anything at all about Content Management Systems (CMS), you'll probably know at least three things: CMS are the most exciting way to do business, CMS can be really, I mean *really*

, complicated and lastly Portals are absolutely, outrageously, often *unaffordably* expensive.

Terra Luna Inc is a hosting company which, in first hand, is targeting the personal market, and small businesses. We host your domain, and web pages. We also set up CMS systems, and design everything from personal home pages in plain HTML, to complex php systems and CMS.

We have several hosting packages that are ready to use, even if you don't know anything about HTML or PHP.

This is a small selection of options available through a standard hosting package with cPanel:

- Log in to maintain your account
- Maintain your domain or buy and sell domains
- Maintain your web site through cPanel
- Maintain your databases through phpMyadmin
- Create accounts for email, FTP, WWW, and other protocols
- Create subdomains, addon-domains or park domains
- Upload of images and files through your browser
- You get complete control of everything within your site
- A lot of other functions is buildt in too

We also provide Joomla!-hosting with pre-installed Joomla! 1.0 or 1.5

Here is a few things you can do with your ready to use Joomla! CMS:

- Change order of objects including news, FAQs, articles etc.
- Random Newsflash generator
- Remote author submission module for News, Articles, FAQs and Links
- Object hierarchy - as many sections, departments, divisions and pages as you want
- Image library - store all your PNGs, PDFs, DOCs, XLSs, GIFs and JPEGs online for easy use
- Automatic Path-Finder. Place a picture and let the CMS fix the link
- News feed manager. Choose from over 360 news feeds from around the world
- Archive manager. Put your old articles into cold storage rather than throw them out
- Email-a-friend and Print-format for every story and article
- In-line Text editor similar to Word Pad
- User editable look and feel
- Polls/Surveys - Now put a different one on each page
- Custom Page Modules. Download custom page modules to spice up your site
- Template Manager. Download templates and implement them in seconds

- Layout preview. See how it looks before going live
- Banner manager. Make money out of your site
